Introducing: Super Star Online - Pro

The word is: **fidelity**
As defined as: strict observance of promises, duties, etc.

I came across this word recently as it was applied to educational software by Senator Howard Stephenson of Utah. In Utah, independent evaluations indicated that paid student licenses were **95% under-utilized**. Fidelity means using the digital instruction faithfully to effectively improve student outcomes. A key component of insuring fidelity includes training teachers on how to use digital instruction and how to integrate it into their classrooms. You can watch a video to learn more about what Utah is doing to change the way digital instruction is used by viewing a video of Senator Howard Stephenson at https://vimeo.com/185556962 Password: utah .

I think you will find this video very interesting and it gives you a lot to think about. It explains why there has been several reports about how digital education has been a failure. It also explains how effective it can be when implemented properly.

Key components to high quality digital instruction are immediate feedback and personalized learning. These are key components of our Super Star Motivational and Data Tracking System.

However, to insure that we help improve student outcome and fidelity, I decided we need to do more. We now offer **Super Star Online – Pro**. The purpose of Super Star Online - Pro is to improve student performance and results by providing advanced professional development support to principals, site administrators, computer lab teachers, classroom teachers and parents. Super Star Online – Pro also offers on going monitoring of usage, to insure fidelity. Super Star Online – Pro includes all of the courses of Super Star Online - Standard.

Site Administrator Training - HM2L will schedule a 30 minute to 1 hour video conference or phone call with the site administrator(s) to explain and demonstrate the features and controls of the site, including:
• Adding students and teachers to the site, editing people, removing or making people inactive
• Adding students and teachers to the site, editing people, removing or making people inactive
• Adding teachers to the site and giving teachers the Manage Students and Manage Class rights
• Creating a master teacher
• Editing classes and assigning courses
• Accessing our reports

Teacher Training - HM2L will schedule a 30 minute to 1 hour video conference or phone call with your teachers to explain and demonstrate our teacher features, including:

- Adding, editing or removing students from the class
- Making a student inactive
- Adding or removing courses to the class

- Creating sub-classes and adding courses and students to the sub-class for personalized or differentiated instruction
- Using the pre-test and post-test assessments
- Using or Student Management features

The pricing for **Super Star Online - Pro** is $8 per user, per year (200 user minimum). This is a brief explanation of Super Star Online - Pro. You can read more about this new service at: http://helpme2learn.com/school/onlinepro .

Title 1 - Funding Increases

As the United States Department of Education transitions from NCLB (No Child Left Behind) to the ESSA (Every Student Succeeds Act), there are increased allocations of Title 1 funds for over 600 districts. Check with your district to see if there are funds available.

At the Help Me 2 Learn Company, we find that most of our subscriptions to Super Star Online come from: 1. Title 1 funds, 2. PTA (or other similar groups) funding, 3. Grants. If you are at a school which receives Title 1 funds, we encourage you to find out if your district has additional funds which can be used for a purchase of a subscription to Super Star Online.

If you are applying for a grant and need help documenting the courses and features of Super Star Online, please contact us and we will be happy to help.

Please contact Dan Sheffield at: 800-460-7001 or by email at: dan@helpme2learn.com if you would like a written quote or need any help with a grant application.

If you have any other suggestions for funding sources, please let me know.
"Your Kids will Love Learning with Super Star!"
